

The Joy of Service

She works as a mobile teacher under the Alternative Learning System (ALS) Program of the Department of Education (DepED and receives Php 2,000.00 monthly allowance. She focuses on teaching literacy and numeracy to those who are unable to finish or attend high school and quite old enough to enter high school through modules issued to them. She said that through the Pantawid Pamilyang Pilipino Program she has learned to appreciate education even more and wants that others may appreciate it the way she does by simply making it accessible to them.

Apart from teaching in Alternative Learning System, she devotes time as a volunteer catechist in Baquilan Resettlement School 1 to Grade 3 and Grade 4 students every Tuesday and Wednesday. She was involved in catechism since 1993 but she needed to stop in 1997 to work for the growing needs of her family. But she never stopped being a servant of Our Lord until last 2012 she went back teaching.

The most challenging part however is when it comes to the children's communion. She has to visit them in their houses and check whether they were baptized already or not yet. Although she does not receive monetary compensation she noticed that her life became easier. Every problem seemed to be more manageable and her faith became stronger. According to her, being an instrument of transforming the children and leading them to Christ.

She, today, find her life more meaningful.###
