

# Empowering the City/Municipal Action Teams

Colloquium, is the last module (among the 5 modules) of the Certificate Course on Personal Efficacy and Leadership, which is an academic unit of the Masters in Public Management (MPM) program of the Graduate School of Public and Development Management, Development Academy of the Philippines.

After identifying the Social and Welfare and Development Indicators's gaps per province (and per municipality), and packaging it in a well-bounded book, the City/Municipal Action Team (C/MAT) Leaders representatives (per province) is now presenting their action plan on how to lobby these gaps and tapped readily-available/ local resources in a panel defense.

"I hope that you'll all continue to be passionate—passionate to help your constituents. I hope such will not end in this four-cornered hall," reminded Assistant Regional Director for Operations, Venus F. Rebulde, as she congratulates each team for their dedicated effort and determination.

Today, though, is just the initial step of the (leadership) journey that they have to go through for the year 2017, as the Learning Manager, Alyn Joy D. Baltazar, laid emphasis on. ###
