

DSWD to form Digital Transformation Team from the ranks of IT experts, professionals

The Department of Social Welfare and Development (DSWD) is set to form its Digital Transformation (DX) Team, which will be composed of talented and passionate professionals and experts from various Information and Communications Technology (ICT) disciplines, to play an integral role in revolutionizing social service delivery across the country.

As part of the DSWD's digital transformation strategy and Secretary Rex Gatchalian's "Ease of Doing Social Welfare" vision, the DX team will work on a wide range of innovative projects aimed at streamlining processes, enhancing accessibility and improving efficiency.

The DSWD leadership is committed to leveraging cutting-edge technologies to create a seamless, user-friendly experience for beneficiaries that will ultimately impact the lives of millions of Filipinos.

Currently, the Department is still in the process of establishing the team and is inviting applications from experts and professionals in various fields, including full-stack web development, UI/UX design, software quality engineering, cybersecurity, data privacy, project management, and enterprise architecture, who are interested to become part of the DX Team.

The DSWD aims to hire professionals who possess a strong desire to foster positive change through technology and contribute to a brighter future for the vulnerable and marginalized sectors.

Successful applicants will have the unique opportunity to work alongside a dedicated team of experts, collaborate with domestic and international agencies and access valuable resources and global best practices.

Prospective applicants are encouraged to visit the DSWD website at [<https://jobs.dswd.gov.ph>] for detailed job

descriptions, qualifications and application procedures. Applications will be accepted until the given deadline of each vacant position.

The DSWD looks forward to welcoming innovative and passionate individuals to its DX team and revolutionizing the future of social services in the Philippines.

By joining DSWD's digital transformation journey, professionals can enhance their career prospects while making a meaningful difference in the lives of millions of Filipinos.
