## 1. Processing of Relief Augmentation Request by DSWD Field Offices

This process intends to provide a system on receiving, recording, approving and determining the requirements for request for resource augmentation to the Local Government Units (LGUs) in response to the needs of the families affected by disasters, calamities, and pandemic. Likewise, it aims to ensure that management and mobilization of food and non-food items (FNIs) are done in an effective, efficient, timely and coordinated manner.

This procedure applies to the processes to be undertaken in providing relief augmentation to the LGUs during disaster operations and other calamities and the pandemic. It covers the receipt of the Field Office/s request until the delivery or release of welfare goods. However, special requests from Legislators are not covered by this service. Assistance through congressional requests are considered direct assistance from the DSWD to the disaster victims subject to usual accounting and auditing rules. Further, requests for FNIs that are not disaster related are not covered in this process.

## **FRONTLINE SERVICES**

## 1. Grievance Intake and Response

The Grievance Intake and response is the initial phase of the whole GRS process, which starts from accepting a grievance filed by a client, recording it in the information system, and providing the client an initial response. This service only covers walk-in transactions.

As a general rule, anyone may accept a grievance, request, and inquiry but only the City/Municipal Link and grievance officers may ascertain its validity and thereafter **intake** the grievance. To ‘accept’ a grievance is to receive the transaction but to ‘intake’ is to record the transaction after ascertaining its validity. Intake and response require technical know-how about the GRS, particularly on the procedures in resolving the specific types and subtypes of grievances.

## **1. Approval for the Conduct of Research Study and Acquiring Primary Data From DSWD Officials/Personnel, Beneficiaries, and Clients**

Approval is issued to external requesting parties who intend to conduct research studies related to or involving the Department. The processing of requests to conduct research studies in DSWD Offices, Centers, and Institutions particularly applies to requesting parties who wish to acquire primary data through first-hand investigation, e.g., face-to-face interviews, survey questionnaires, focus group discussions, and case studies, among others, with the DSWD, including its clients/beneficiaries and ongoing programs, projects, and services, wherein their main subject of research study involves the DSWD as an organization. Requests to conduct such activities need to undergo research protocol. Research in which target respondents involve more than one (1) region shall seek the approval of the Director of the Policy Development and Planning Bureau (PDPB). Research requests must be submitted to the PDPB Director at least one (1) month before the projected start of data gathering activity.

On the other hand, research requests for the following need not go through the protocol and may be approved and provided by submitting a letter of request addressed to the head of the concerned office, bureau, service, or unit:

- Observations and/or photo/video/audio shoots at DSWD premises, except those involving DSWD's clients or beneficiaries. If a photo, audio, or video of a client or beneficiary is essential for the study, the requesting party shall secure the consent of the Center Head/Client/Beneficiary.
- Briefing/interview/orientation sessions with key focal persons in the Central Office on general information about DSWD programs, policies, and projects. The DSWD, however, discourages requests for "practice interviews" of DSWD personnel for the sole purpose of student's acquisition of interview skills, in consideration of the valuable time taken away from the personnel when accommodating student requesting parties.
- Conduct surveys with DSWD employees about subject matters that do not directly concern the Department or are not related to the DSWD's program operations.
- Studies conducted by consultants/requesting parties under the Technical Assistance Facility (TAF) grant portfolio. The requesting party, however, shall adhere to the policies on undertaking research and evaluation studies as stipulated in the Guidelines for the Conduct of Research and Evaluation in the DSWD.

### 3. Onsite Implementation of the Assistance to Individuals in Crisis Situation Program for Clients Transacting with the DSWD Offices (CIU/CIS/SWAD OFFICES)

AICS serves as a social safety net or stop-gap measure to support the recovery of individuals and families identified to be suffering from any adversity or crisis through the provision of financial assistance, psychosocial intervention, and referral services that will enable the clients to meet their basic needs in the form of food, transportation, medical, educational, material, funeral, and cash assistance for other support services, among others.

The provision of psychosocial support, including psychological first aid, and counseling, as well as financial assistance to disadvantaged and marginalized sectors, are part of the social protection services of the Department. These protective services aim to help individuals and families cope with the present difficult situation they are experiencing, such as illness, death, loss of job, or source of income. In order to effectively and efficiently respond to existing and emerging crisis situations among vulnerable sectors, a Citizens Charter was crafted to provide a comprehensive guide on the provision of the aforementioned assistance.

#### **4. Offsite Implementation or Assessment of Individual Clients outside the DSWD Offices (CIU/COS/SWAD OFFICES)**

AICS serves as a social safety net or stop-gap measure to support the recovery of individuals and families identified to be suffering from any adversity or crisis through the provision of financial assistance, psychosocial intervention, and referral services that will enable the clients to meet their basic needs in the form of food, transportation, medical, educational, material, funeral, and cash assistance or other support services, among others.

The provision of psychosocial support, including psychological first aid, and counseling, as well as financial assistance to disadvantaged and marginalized sectors, are part of the social protection services of the Department. These protective services aim to help individuals and families to cope with the present difficult situation they are experiencing, such as illness, death, loss of job, or source of income. In order to effectively and efficiently respond to existing and emerging crisis situations among vulnerable sectors, a Citizens Charter was crafted to provide a comprehensive guide on the provision of the aforementioned assistance.

Prior to Offsite implementation, the identified group of individuals shall undergo cross matching prior to the date of implementation to avoid duplication while the assessment and provision of assistance shall be based on the provisions of the MC 06 s. 2023 and its corresponding Amendments.

The planning and implementation shall be in coordination with the appropriate local government offices/agencies/authorities, as applicable, before, during and after the activities. The implementation shall be conducted by schedule.

***NOTE: This Citizens' Charter (CC) is limited to the DSWD processes involving the client - the indigent senior citizen applicant and the SocPen beneficiaries. The CC shall cover the following procedures, as follows: (1) application and presentation of documents of the indigent senior citizen, (2) participation of the indigent senior citizen in the validation and assessment, (3) notification and attendance of the SocPen beneficiary to the cash payout through the DSWD or LGUs under TOF, (4) Filling out of the CSMF of the SocPen Beneficiaries or his/her authorized representative.***

***Other DSWD processes not directly involving the client shall be separated and included in the program's Standard Operating Procedures. The processing of eligibility and release of cash advances of the social pension payment is a separate process being done by the DSWD Field Office in coordination with the concerned LGUs.***

***The SPISC is currently implementing two modes of payments, (a) Cash Payment through identified SDOs and (2) Transfer of funds to LGUs, hence, there may be differences in the turnaround/processing time. The SocPen Team needs staff augmentation from other programs/units for the conduct of simultaneous pay-outs considering the huge number of beneficiaries per region. It is further noted that the program has no plantilla personnel hence, the pay-out depends on the number of SDOs of other programs/units who are available to handle the social pension cash advances.***

***The Turnaround/ Processing time depends on the social pension beneficiary's capacity, availability of the DSWD Field Office identified SDOs, schedules of payout, number of social pension beneficiaries present at the conduct of the payout, and other geographical location/ logistical requirements as agreed upon by the FOs and LGUs.***

## 8.Provision of Assistance to Solo Parent

Solo parents are those who are left alone with the responsibility of rearing their children regardless of marital status and based on National Statistics Office (NSO) data, there are about 14 million solo parents in the Philippines as of 2015. The increasing number of solo parents has led the national government to pass Republic Act No. 8972 or the Solo Parents' Welfare Act of 2000, which was promulgated on November 7, 2000. On 04 June 2022, the Republic Act No. 11861 (RA 11861) or the Expanded Solo Parents Welfare Act lapsed into law and its Revised Implementing Rules and Regulations took effect on 01 November 2022. The passage of RA 11861 expanded the benefits of the solo parents, promotes the rights of Filipino solo parents and ensures that they can receive adequate social protection programs from the government.

RA 11861 directs the Department of Social Welfare and Development (DSWD), in coordination with other agencies to develop a “comprehensive package” of social protection services for solo parents and their families which includes livelihood opportunities, legal advice and assistance, counseling services, parent effectiveness services, and stress debriefing, among others, regardless of financial status.

DSWD is mandated to protect and promote the welfare of the disadvantaged group including the solo parents, and provide technical assistance to partner stakeholders (National Government, Local Government Unit, and Civil Society Organizations). Any solo parent whose income in the place of residence is equal to or below the poverty threshold as set by the PSA and subject to the assessment.

## 1. Concurrence of LGU Engagement

Municipal local government units must undergo the KC-NCDDP enrollment process that aims to brief the local government units about responsibilities in KC-NCDDP and provide them with opportunities for comments and inputs. As such, the enrollment process will include mapping out the various roles, responsibilities, and contributions that DSWD will expect from the local government units. Through the enrollment process, the local government unit's commitments for KC-NCDDP are better clarified at the early stage, and risks of the local government unit's failure to deliver said commitments can be anticipated and managed by DSWD.
